FROM THE BOARD OF DIRECTOR'S DESK

The journey of CITY Burger Group was started in the early 1990's.

It gives a great deal of satisfaction when we look over the past decade at what we at City have accomplished. We have observed to do self-examination, to check out our effectiveness and bring about the overwhelming adventure that lies ahead.

We have accomplished due to the effect of the hard work, endurance and engagement of each and every individual who at any time in our history has been a member of the City Family. It is through the persistent efforts of these people that it is growing towards a better tomorrow for all.

Initially we started with restaurants and have been adding new branches across the UAE laying our footprints and building the confidence & trust of the customers till now. With our diversified culture, our construction business also moved across with latest trend setting ideas of building and construction to develop varied townships in Kerala, India.

We have a strong vision and we believe that if we are working on something excited that we really care for, we don't have to be pushed. The vision will pull us into the dreams of reality. Our future plans include fine dining restaurants in the UAE and spreading the construction business to other parts of India.

RESTAURANT & CAFETERIA

We have been trying to accommodate all types of customers in spite of culture or language even though the City's main focus is in Arabic, Chinese and Indian customers. Thus we have not given any chance to customers to move out from their chair unsatisfied.

ARABIC CUISINE

Arabic Cuisine encompasses a unification of a rich variance of Mediterranean, Middle Eastern, and Indian food. Arabic Tea is inevitable and is served well in advance.

CHINESE CUISINE

Chinese cuisine at City remains always true to the spirit and traditions of Chinese food culture with an unparalleled range of ingredients and dishes.

INDIAN CUISINE

Indian cuisine encompasses a wide variety of regional cuisine and each vary significantly from each other in applying the natural available herbs, spices, meat, vegetables and fruits.

CATERING SERVICES

We very well know that it is not only the gracefully prepared food alone can fascinate to the senses of Aroma, Flavour and presentation - perhaps even touch, but the settings and surroundings can play a considerable part in a successfully catered event. This is strictly practiced and followed in all the services.

We specialize in offering catering services such as indoor catering services, birthday catering services, catering service for reception, catering service for marriage, catering service for parties and anniversary party catering services. Our esteemed clients include Al Futtaim Group also.
